# **Suyoung Jang**

Calgary, AB | (825) 288-9446 | suyoung.jang@ucalgary.ca | Github: bellaajang

#### **EDUCATION**

Bachelor of Science, Software Engineering University of Calgary

Calgary, AB, Canada

Graduation Date (Expected): Jan/2028

INTERNSHIP STATUS

Available from May 1, 2025, seeking a software engineering internship for 4 months or more

#### **SKILLS & INTERESTS**

## Skills:

- C, C++, Python, MySQL, Postgres, HTML, Java, JavaScript, Dart, C#
- React, Flutter, Spring Boot, Node.js, TensorFlow, Linux, Git

#### **Relevant Coursework:**

- Object Oriented Programming, Operating Systems, Networked Systems, Full Stack Web Development, Principles of Software Engineering Design
- Programming with Data, Data Structures & Algorithms, Database Management, Machine Learning Systems

#### **PROJECTS**

## **Movie Booking System**

- Designed and developed a movie booking system adhering to OOP principles using Java and Spring Boot, implementing seamless backend functionality and creating modular, reusable, and maintainable code.
- Created and managed a MySQL database to store and retrieve data from movies
- Integrated backend services with the database and ensured smooth data flow between application layers using **Spring Boot**'s data access tools

Github link: <a href="https://github.com/bellaajang/MovieBookingSystem">https://github.com/bellaajang/MovieBookingSystem</a>

## Flashlight App

- Designed and developed a cross-platform mobile application using the **Flutter** framework with **Dart** for front-end functionality.
- Implemented platform-specific plugins in Android and iOS to control the flashlight and adjust phone brightness.
- Enhanced functionality by including unique features such as a bear bell with adjustable volume and an SOS signal.

## **Arts Museum Application**

• Developed the database of many art pieces in **MySQL** and applied it by utilizing **Python** to be used for database maintenance, data entry, and browsing

Github link: https://github.com/ENSF-300-F23/museum-project-I01-34

### **Handheld Retro Video Game Console**

- Developed a snake game featuring randomized appearing apples with a snake eating the apples to grow by one pixel, using **C++** and **Arduino Uno**
- Designed a 3D model of the game console with Fusion 360

## **EXTRACURRICULAR/EXPERIENCE**

## The Association of Korean-Canadian Scientists and Engineers (AKCSE)

*Vice President in Events* 

5/2024 - present

9/2023 - 5/2024

- Gathered feedback from executives and participants to achieve success and implement improvements for future events
- Led every event planning and execution for the organization, ensuring alignment with the mission to support Korean-Canadian students in STEM fields

Executive in Events

- Attended weekly meetings to plan a variety of events to provide means of academic assistance, networking opportunities, mentorship, and building positive and new relationships with Korean-Canadian students at the University of Calgary
- Being responsible for giving academic support and building a connection with other peers and professors to expand their future career prospects in Science and Engineering

## **Schulich Leadership**

Leadership Team Member

9/2022 - present

• Built diverse leadership skills and expertise through professional development in Engineering

### **Song Academy**

1560 Church Ave, Victoria, BC V8P 2H1

Teaching Assistant Volunteer

10/2019 - 04/2020

- Built a positive relationship with Korean Canadian students to foster a supportive environment and open communication and taught them Korean language
- Helped the students with their activities and assignments
- Kept an accurate track of the students' performances

### **WORK EXPERIENCE**

## **Paris Baguette Korea**

Incheon, South Korea

Bakery Clerk Team Lead

12/2021 - 08/2022

- Managed front-of-house operations, including taking orders, answering customer queries, and handling transactions efficiently
- Trained and mentored new team members on customer service best practices, product knowledge, and store policies
- Addressed customer concerns promptly, ensuring a positive and welcoming bakery experience for 100+ customers daily
